

**Nombre:**

J. Fernando Márquez-Farías

Experiencia Profesional:

Investigador titular INAPESCA 1993-1996
Jefe de Departamento de Modelación INAPESCA 1996-1998
Subdirector de Tecnología INAPESCA 1999-2009
Profesor Investigador de Tiempo Completo Titular C. FACIMAR-UAS 2010-a la fecha
Consultor Principal Programa Océanos EDF en Cuba 2014-2019

Membresías:

Miembro de la Sociedad Americana de Elasmobranchios | Miembro de la Sociedad Americana de Pesquerías | Miembro de la Sociedad Mexicana de Pesquerías | Miembro del SSG-IUCN

Especialidad: Dinámica de poblaciones | Evaluación de poblaciones | Métodos cuantitativos | Simulación numérica | Inferencia bayesiana

Distinciones:

Sistema Nacional de Investigadores CONACyT Nivel I de 2007-2022
Sistema Nacional de Investigadores CONACyT Nivel II de 2023-2027
Perfil PROMEP desde 2010-2024
Miembro del comité científico editorial de *Fishery Bulletin* NMFS-NOAA
https://es.wikipedia.org/wiki/Fishery_Bulletin

Planes de Manejo:

Colaboración en la elaboración del Plan de Acción Nacional de Tiburones y rayas de México 2004
Colaboración en la elaboración del Plan de Acción Nacional de Tiburones y rayas de Cuba 2015
Colaboración en la elaboración del Plan de Acción Nacional de Tiburones y rayas de Costa Rica 2020

Publicaciones científicas:

Editor de un volumen especial de conductos de la Revista *Hidrobiológica* 2014

Márquez-Farías, J.F. y Castillo-Geníz, J.L. 1998. Fishery biology and demography of the Atlantic sharpnose shark, *Rhizoprionodon terraenovae* from Southern Gulf of México. *Fisheries Research*. 39:183-198.

Márquez-Farías, J.F., Castillo-Geníz, J.L., y Rodríguez de la Cruz, M.C. 1998. Demografía del cazón Pech, *Sphyrna tiburo*, (Linnaeus, 1758), del Sureste del Golfo de México. *Ciencias Marinas*. 24(1): 13-34

Fishery Bulletin website: <https://spo.nmfs.noaa.gov/fb.htm>

Fishery Bulletin carries original research reports on investigations in fishery science, engineering, and economics. It began as the Bulletin of the United States Fish Commission in 1881; it became the Bulletin of the Bureau of Fisheries in 1904 and the *Fishery Bulletin* of the U.S. Fish and Wildlife Service in 1941. Separates were issued as documents through volume 46; the last document was no. 1103. Beginning with volume 47 in 1931 and continuing through volume 62 in 1963, each separate appeared as a numbered bulletin. A new system began in 1963, with volume 63, in which papers are bound together in a single issue. Beginning with volume 70, number 1, January 1972, *Fishery Bulletin* became a periodical, issued quarterly. In this form, it is available by subscription from the Superintendent of Documents, U.S. Government Publishing Office, Washington, DC 20401. It is also available free in limited numbers to libraries, research institutions, and state and federal agencies and in exchange for other scientific publications.
